*Footnotes are contained on the notes tab of this workbook.

Reporting Changes began in 2002 because hospitals started submitting data to OSHPD through a new Internet based reporting system known as:
[ALIRTS \(Automated Licensing Information and Report Tracking System\).](#)

Beginning in Year 2002 some data elements previously reported for prior years have changed, thus showing a significant increase or decrease between years 2001 and 2002. Therefore, it is strongly recommended that the user refer to the utilization database and documentation to perform a more in depth comparison over the years. The utilization data can be found at the following link:

[Hospital Annual Utilization Database](#)

* **Total ED Visits** are for hospitals reporting with an E.M.S. Level of Basic, Comprehensive or Standby. A hospital may have ED visits but no E.M.S. Level due to a consolidated facility or two separately licensed hospitals having the same physical address, but one ED.

** **The EMS counts** do not relect one Standby and one Basic designations who were licensed at the beginning of the year, but not at the end.

***Type of Control: For Profit** includes Investor -Corporations, Individual, Partnership, and LLC. **Not for Profit** includes Nonprofit corporations, Church, Kaiser and UC hospitals

CALIFORNIA ACUTE CARE HOSPITAL SERVICES
STATEWIDE TRENDS, 1997 - 2006

Annual Utilization Reports
of Hospitals, 1997-2006

1997 1998 1999 2000 2001 2002 2003 2004 2005 2006

Government includes the following: State, County, City, and District, **Unknown** is primarily Non-responding hospitals, since the type of control was not reported.

***Facility Inventory** data are presented for all licensed community-based hospitals (numbers of facilities and their licensed beds); including **State** Hospitals, those hospitals and beds in-suspense and those hospitals that failed to submit their Annual Hospital Utilization Reports.

Utilization data for all responding community-based, acute facilities are presented.

State Hospitals are excluded from the utilization data.

- * **Comprehensive E.M.S.** In addition to basic acute hospital services, the hospital must also provide high tech services including acute dialysis, burn center, and
- * **Basic E.M.S.** Emergency medical care in a hospital where an EMS physician is on staff 24 hours a day, year-around. (See Title 22, Div. 5, Secs. 70413-70419)
- * **Standby E.M.S.** Must provide 24 hour, "on call" physician coverage. There is an "on call" doctor responsible for emergency coverage (usually a staff physician with hospital admitting privileges) who must be at the hospital within 30 minutes after receiving a phone call from the hospital (See Title 22, Div. 5, Secs. 70651-70657, Calif. Code of Regulations).
